

# Perspectives

Be Informed

Be Empowered

Explore Your Choices

A life education program exploring the issues surrounding unexpected pregnancy

Priceless Life

A Priceless Perspectives Program

## Perspectives that are:

→ Educated

→ Ethical

→ Empowered

→ Empathic

**Perspectives** draws on the knowledge and experience of the professionals at Priceless House, who have worked in the area of unplanned pregnancy for more than 20 years.

## What people are saying...

### **Schools have said:**

- “Unplanned pregnancy is an area which is often overlooked in life education programs.

**Perspectives** fills that gap”

- “The trained facilitators created a relaxed and open environment using small group discussions which allowed students to ask questions and hear the views of others”

*Joel Erkkila Senior Chaplain and Interim Head of Middle School, Redland College*

### **Students have said:**

- “I felt like my opinion was heard and understood”
- “I felt comfortable discussing those topics in the group”

- “It was open and friendly”
- “They were friendly and well informed”

## About the program...

- **Perspectives** is a program for secondary students from grades 10 to 12, written in light of the Australian Curriculum's educational goals.
- The program is a response to an identified need for students to have accurate information about issues surrounding the experience of unplanned pregnancy. It is written by professionals: teachers, social workers and doctors.
- **Perspectives** is sensitively delivered by trained facilitators who encourage students to empathise with the needs and views of others.
- The program equips students with ethical decision making skills and knowledge of support networks; empowering them to make informed decisions in the face of unplanned pregnancy.

What now?  
I'm pregnant!

What are my  
options?

# Perspectives

## Included in the program...

### Real Australian stories

A 20 minute DVD containing real life stories of Australian people who have faced unplanned pregnancies.

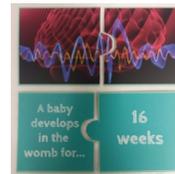

### Fetal development models

Full scale models used to illustrate fetal development at different stages of pregnancy.

### Small group work

Small group discussions exploring issues raised in the DVD.

### Hands-on activities

Interactive activities to promote discussion and engagement of students.

### Take home journal and gift

A journal for each student to take home which includes links to resources and support networks.

### Professionally trained facilitators

Sensitively delivered content respecting the opinions, experiences and autonomy of all students.
